CABE JAMU

Java *Long Pepper*

Piper retrofractum

Pungent dried fruit spikes, prized in herbal and culinary markets.

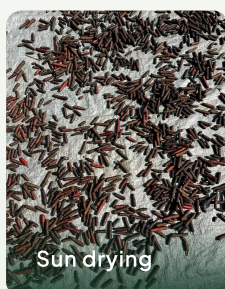

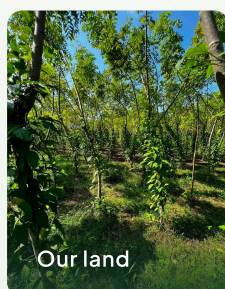

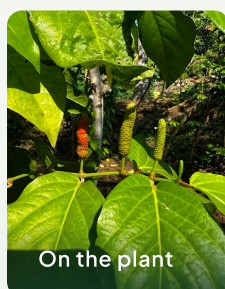

Sun dried Java long pepper with a warm, pungent aroma. Widely used in traditional herbal medicine (jamu), seasoning blends and the food and beverage industry. Grown on our own land and partner farms in East Java, harvested mature and sun dried on clean tarpaulins. Available whole or ground.

CENGKEH

Indonesian *Clove*

Syzygium aromaticum

Hand picked whole cloves with high volatile oil content.

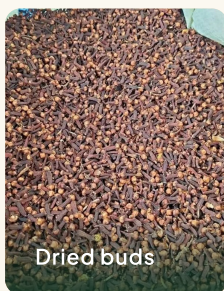

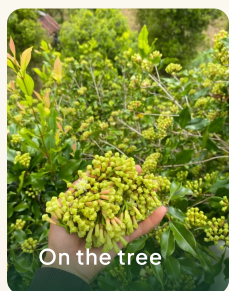

Premium Indonesian cloves, hand picked and sun dried. A staple of the global spice, food and tobacco industries, valued for their strong aroma and high essential oil yield. Supplied as whole dried buds, headless, sorted by hand to remove stems and foreign matter.

PALA

Indonesian *Nutmeg*

Myristica fragrans

Aromatic Indonesian nutmeg, sorted by grade and count for food and extraction.

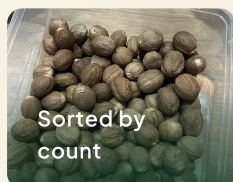

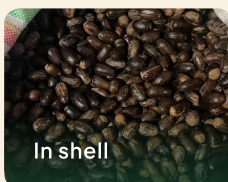

Indonesian nutmeg, the original spice of the Maluku islands, with a rich, warm and sweet aroma. Supplied as whole shelled nutmeg in AB, ABCD, SS and BWP grades for the food, seasoning and essential oil industries. In shell or ground on request.

BUNGA PALA

Nutmeg *Mace*

Myristica fragrans (aril)

The delicate red aril of the nutmeg, dried to a bright orange for premium seasoning.

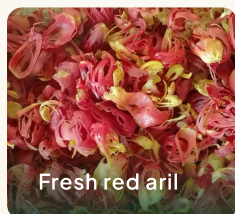

Mace is the lace-like aril that wraps the nutmeg seed. Carefully separated by hand and dried until it turns orange to orange-red, it has a finer, more delicate flavour than nutmeg and is valued in seasoning blends, meat processing and bakery. Supplied as whole blades or broken, ground on request.
